

A Newsletter for IPA Network Providers

## **The North Division- A Growing Partnership of Providers**

In July 2008, Montefiore added the 369– bed North Division (formerly Our Lady of Mercy), expanding access for patients in the northeast Bronx to the resources of Montefiore’s extensive healthcare delivery system.

With this acquisition, the Montefiore IPA added nearly 200 providers to its network, which has now grown to over 2,500 credentialed providers. The additional physicians include primary care doctors and specialists who further expand the Montefiore health system of community-based care as well as the availability of experts in geriatrics, cancer, psychiatry, maternal/child health and other specialties. North Division physicians who have recently joined the Montefiore IPA have access to CMOs comprehensive services.

The Montefiore IPA currently manages various products for Aetna, Health Net, HIP (EmblemHealth), Oxford and Empire.
